

(TENURE OR TENURE-TRACK/ANTICIPATED/MULTIPLE POSITIONS)

**ASSISTANT/ASSOCIATE/FULL PROFESSOR**

(Computational Science Applications Faculty)

Center for Computation and Technology

The Center for Computation & Technology (CCT) at Louisiana State University (LSU) is an innovative and interdisciplinary research environment that advances computational sciences, technologies, and the disciplines they touch. Twenty-five faculty presently draw a portion of their academic-year salary from the CCT and hold joint appointments between the CCT and a more traditional home academic department where tenure resides; these appointments span ten departments and five separate colleges.

**Responsibilities:** The Assistant/Associate/Full Professor will have a research focus in application areas that utilize high-performance cyber-infrastructure, networking, or data analysis to solve complex problems. Faculty whose computational research is focused on challenging and timely interdisciplinary application areas that complement existing areas of research activity at LSU and that address complex problems of importance to Louisiana are especially desired.

**Required Qualifications:** Successful candidates must possess a terminal degree or equivalent within the candidate's primary discipline as well as a strong reputation as an interdisciplinary researcher or, in the case of emerging scholars, the capacity to build the same; a distinguished record of research accomplishments; an established publication record and history of attracting extramural funding, consistent with rank. A.B.D. candidates will be considered, but must have a Ph.D. by January 2012.

Departmental affiliations will be made as appropriate, and all positions are either tenure or tenure-track. An offer of employment is contingent on a satisfactory pre-employment background check. Application deadline is January 13, 2012 or until candidates are selected. Evaluation of applications and nominations will commence immediately. Women and minorities are encouraged to apply. Apply online and view a more detailed ad at: [www.lsusystemcareers.lsu.edu](http://www.lsusystemcareers.lsu.edu). Position #031662/030345/030137
